- DEFAULT ROUTING
_____

- It is being performed with the help of global network address which is
0.0.0.0
- In this case sender and receiver is unknown and configured in rare
cases when the receiver router's information is not identified.

- To configure Default Routing on Router

- Router(config)#ip route 0.0.0.0 0.0.0.0 <next router's serial interface
ip> or serial2/0

- Router(config)#ip route 0.0.0.0 0.0.0.0 serial2/0
                #ip route 0.0.0.0 0.0.0.0 serial3/0
